

2022 Roadway Management Conference

October 11 - 13, Wheeling, WV

Professional Development Hours Self-Reporting Attendee Record

Licensures and certifications often require professional development hours for maintenance. Your attendance at this conference entitles you to receive PDHs. This form is for you to record the portions of the conference you attend and the corresponding credit hours for those sessions. **It is your responsibility to ensure the sessions recorded are appropriate for the licensure or certification program.** Also, ensure that you only mark one session per breakout period. The organizers will only record attendance for the conference, not session attendance.
